Junior Software Engineer

Alex Reynolds

Unemployed

Age: 24   Location: Kelowna, BC

Alex is a recent graduate of Software Engineering. He has moved to Kelowna, BC in hopes of finding a job working as a Software Engineering at a promising company with a high salary as well as pursuit his photography hobby

"My goal is to work for a well known software engineering company that can allow me to help others and give back to my community!"

"I want to work in multiple companies if needed in order to find the perfect fit for myself as an individual and team player!"

Needs:
- Stability in finding a job within Kelowna
- Be apart of a company or organization with opportunity to grow
- Interested in finding the perfect company to work within and accepts needing to try multiple companies
- Manageable work-life balance to dedicate time to career while also having ample time to pursue his passion in photography

Frustrations:
- Saturation in the job market for software engineers is making job finding increasingly difficult
- As a recent graduate, finding a job with a high salary is hard to find

Goals:
- Secure a full time position with a reputable company or organization
- Enhance photography skills and work on photography as a hobby
- Work within a team or department pertaining to Artificial Intelligence

Tasks:
- Be able to search companies by salary
- Search companies by market value to determine size
- Check reviews of company from customers and employees to understand how well the company operates
